

iMoneyNet, Short Duration Funds

Financial Intelligence
Informa

iMoneyNet has the Short Duration Fund intelligence you need to make informed decisions and effectively compete in this market space. In this low-rate environment, investors need product alternatives that increase returns.

Our short duration bond fund data set includes in-depth information for more than 200 domestic and offshore portfolios representing more than \$600B in assets.

Make the best use of your clients' excess cash by analyzing the data on a wide range of fund statistics including:

Advisor	Reinvestment Price
Asset Class	SEC Yield
Benchmark	Share Class Assets
Credit Quality	Sharpe Ratio
Effective Duration	Standard Deviation
Expenses	Ticker
Manager	Total Portfolio Assets
Maturity Distributions	Turnover
Monthly Dividend	30 Day Subsidized Yield
NAV (month end)	30 Day Unsubsidized Yield
Number of Holdings	WAL (Weighted Average Life)
Performance Returns	WAM (Weighted Average Maturity)
Portfolio Composition
